V150 ENGINEERED WOMAN
1908264

V150 Engineered is a reliable, all-purpose running shoe with a robust Vibram outsole, designed for both high-performance training and casual all-day wear. A fully engineered mesh upper is combined with Ar Foam™ in the forefoot of the midsole for extra energy return. The last follows the foot's natural contours and the shoe offers neutral stability for runners with normal pronation.

- Lightweight, breathable engineered mesh upper
- Energy foam in the forefoot for extra energy return
- V-flex zones in the outsole for stability and natural flexibility
- Vibram rubber outsole with superior grip on wet and dry surfaces
- Neutral stability, drop 6 mm
- Sizes (EU): 35,5 – 42

- **Upper: 60% Polyester, 40% Polyamide**
- **Midsole: 100% EVA Foam**
- **Outsole: 100% Rubber**
